alternate tactics
and creative routes
to desired objectives**

Process

1 RISK FREE INITIAL SURVEY

We will tour your operations. I will ask lots of questions and strive to see the business as you see it.

2 SHOW YOU THE MONEY

We will identify areas that are causing you problems and costing you money. We will then formulate plans to turn those problems into profitable opportunities.

3 INCREASE THE BOTTOM LINE

I will lead the 1st Profit Improvement Project and coach you and your staff on the entire process. Then, I will serve as coach to you or one of your staff, who will lead the next Project.

4 ONGOING GROWTH

You are now well on your way to increasing your salary, your annual profit and your company value.

“Lean management is not a quick-fix fad, it is a **PRINCIPLE BASED METHODOLOGY** for improving any business, but it requires insight, patience and real work to make happen. If you haven't been diligently working using the lean principles for at least five years, then **YOU WILL BENEFIT GREATLY** by coaching from someone like Tim Ward, who has made lean management the focus of his entire career.”
